Contents

Volume 14

Second EURO V Special Issue

1 Invited Review
Inventory control: Models and problems
G. Urgeletti Tinarelli

13 Potentials and limitations of robotics: Guides to managerial evaluations
B. Gold

18 Operational research into mass production
G.M. Buxey

31 Effects of productivity definition and measurement on performance evaluation
G.P. Cosmetatos and S. Eilon

36 Simulation of an automated logistics and manufacturing system
J.K. Klitz

40 Growth, survival and control in small manufacturing systems
D.M. Wright, D.J. Rhodes and M.G. Jarrett

52 Easy-to-use inventory management systems for small companies
W. Bruggeman and P. Vandendaele

59 The generalized multi-item lot size scheduling
J.-C. Panayiotopoulos

66 A mathematical model of a flexibile manufacturing system with limited in-process inventory
D. Dubois

79 An automatic method for modelling and analysing industrial chemical plants
R.C.H. Cheng and G. Jones

89 Deterministic/stochastic assumptions in job shops
D.A. Elvers and L.R. Taube

95 A decision support system for job shop scheduling
F. Viviers

104 The management of technological change in the British steel industry
G.F. Ray

116 The relevance of system dynamics to engineering systems design
E.F. Wolstenholme

127 Book Reviews

134 EURO Bulletin

137 Invited Review
Differential game models in management science
G. Feichtinger and S. Jørgensen

156 NOAK '81 Prize-Winning Papers
A system dynamics model for long range planning in a railroad
P. Gottschalk
Simulation as a tool for planning of exploration for deep seated base metal deposits
K. Malmqvist and L. Malmqvist

169 Prospects for the Middle East: Is a peaceful settlement attainable?
L.G. Vargas

193 Short Communication
The assignment problem under categorized jobs
V. Aggarwal

196 Book Reviews
205 Euro Bulletin

Third EURO V Special Issue

207 Invited Review
Model validation in operations research
M. Landry, J.-L. Malouin and M. Oral

221 On Kuhn, Popper and teaching technological innovation management
M.J.C. Martin
228 A monitoring scheme for maintaining the solution to OR-problems
J.W.M. Bertrand
238 Risk analysis: Testing some prejudices
C.B. Chapman and D.F. Cooper
248 Managing risk in the real world
B.C.Ball, Jr.
262 Risk and spectral instability in portfolio analysis
H. Talpaz, A. Harpaz and J.B. Penson, Jr.
270 The role of operational research in organizational decision making
R.M. Kerr
279 Stowing seagoing chemical tankers: An example of solving some semi-structured decision problems
H. Stadtler
288 Decision maker preferences for information in complex decision making: New directions for OR intervention
P.R. Watkins
295 Professional evolution in hierarchical organizations
C.S. Mitropoulos
305 Health visitors revisited
J. Edwards, M. Luck and S. Medlam
318 The influence of increasing consultations on general practitioner activity rates in Belgium and United Kingdom
D.M. Fleming
323 Reassessing operations research in Finland
Y. Seppälä
329 Computer usage and employment of operations research techniques in Turkish industrial firms: A survey study
K. Kurtuluş
335 Facts, methods, programmes and paradigms
P. Agrell

341 Book Reviews
348 EURO Bulletin
351 Invited Review
Lead time management
I.P. Tatsiopoulos and B.G. Kingsman
359 The technical elements of the system dynamics approach
R.G. Coyle
371 Stochastic vehicle routing: A comprehensive approach
W.R. Stewart, Jr. and B.L. Golden
386 Trim-loss pattern rearrangement and its relevance to the flat-glass industry
A. Farley
393 Short Communication
A note on modifying a two-dimensional trim-loss algorithm to deal with cutting restrictions
A. Farley
396 Book Reviews
407 EURO Bulletin
409 Acknowledgment to Referees
411 Author Index
414 Book Review Index
